Response to your request

Number of exemptions granted

Between 1 January 2021 and Friday, 8 May 2026, **41** exemptions have been granted under section 44 of the Films, Videos, and Publications Classification Act 1993 (the Classification Act).

There are currently **7** active exemptions, **4** of which are for academic purposes, **2** for educational purposes, and **1** relating to a Coroner's Inquiry.

Prescribed fee

All 41 exemption applications were accompanied by the prescribed fee of **\$102.20** (including GST).

Publication details, exemption period, and conditions

The attached document includes, for each exemption:

- Publication details (title and OFLC reference)
- Exemption period (in months)
- Purpose of the exemption
- Conditions imposed on the exemption

Conditions for each exemption

The conditions for each exemption have been consolidated into a standard table. The table lists condition categories and tick marks show which conditions apply to each exemption.

The table below describes each condition category.

Condition Category	Description
Delivery of publication	Delivery or transfer of the publication to the person granted the exemption.
Storage of publication	The manner in which the publication is stored or held, including any restrictions on location, format or security measures.
Sole access to publication	Access to the publication is restricted to a single authorised individual only (i.e. the applicant).
Other authorised people (access)	Additional specified individuals are authorised to access (handle or hold) the publication(s).
Other authorised people (viewing)	Additional specified individuals are authorised to view the publication, but there may be requirements (for example, viewing location).
Parental consent required	Consent from a parent or guardian must be obtained prior to viewing of the publication by any student under the age of the publication's age restriction.
Shown in classroom setting/structured lesson	The publication may only be shown or used within a structured educational setting.
Named underage students	Access or use is limited to specifically identified students who will be under the age of the publication's age restriction at the time it is viewed.
Location viewing/screening	The publication may only be viewed or screened at a specified location or specified venue.
Support requirements	Support may need to be provided, for example: <ul style="list-style-type: none">• For entertainment publications, a parent accompanying a child who is under the age of the age restriction;• For objectionable publications, requiring support to be in place for during and after the viewing.

Exemption period and extensions

For each exemption, we specify the period for which it is valid (start and end date). If access is needed beyond the expiry date, the applicant may request an extension in writing before the exemption expires. No additional fee applies for an extension request.

Possession after the expiry date (of the original exemption or any extension) is an offence under the Classification Act. All copies must be permanently deleted or destroyed on or before the date that the exemption expires.

Row 11 – Coroners Inquiry

The conditions for the Coroners Inquiry in row 11 are unique and don't directly fit into the condition categories. Those conditions support the coroner's discretion in running the coronial proceedings.

The exemptions are for viewing only, and are limited to those who need to do so for the purposes of the Inquiry. The Coroner is able to determine who needs to view the publications. Viewings must be in a safe and supportive environment, and reasonable steps must be taken to ensure that any viewing is arranged and conducted in a humane and supportive manner.

In relation to The Great Replacement, also known as The Great Replacement Manifesto [OFLC 1900149.000], possession and control of the Manifesto may be given to counsel in hard copy only for the sole purpose of the viewing and on the condition that no copy of it or any part of it is to be made. The complete Manifesto must be returned to Police at the conclusion of the viewing. The Coroner must be advised of what support is proposed and additional support may need to be provided.

In relation to the video Christchurch Mosque Attack Livestream [1900148.000], possession and control of the Livestream remains at all times with the New Zealand Police.
